Customed 19 Inch All In One Computer Monitor HD Industrial Monitor With Touch Screen Panel

Industrial Touch Display

The computer features a 19-inch capacitive touch screen with a 4:3 aspect ratio. This high-quality display provides vibrant colors, sharp resolution, and excellent touch responsiveness. The capacitive touch technology allows for multi-touch gestures, making it easy to navigate and interact with the computer.

All-in-One Design

The 19-inch computer has an all-in-one design, meaning that all the hardware components are integrated into the display itself. This eliminates the need for a separate tower or CPU, saving space and making it more convenient to set up and use.

Operating System

The 19-inch all-in-one computer comes with a pre-installed operating system, such as Windows, or Linux. The operating system provides a user-friendly interface and manages the computer's resources, allowing you to run various applications and programs.
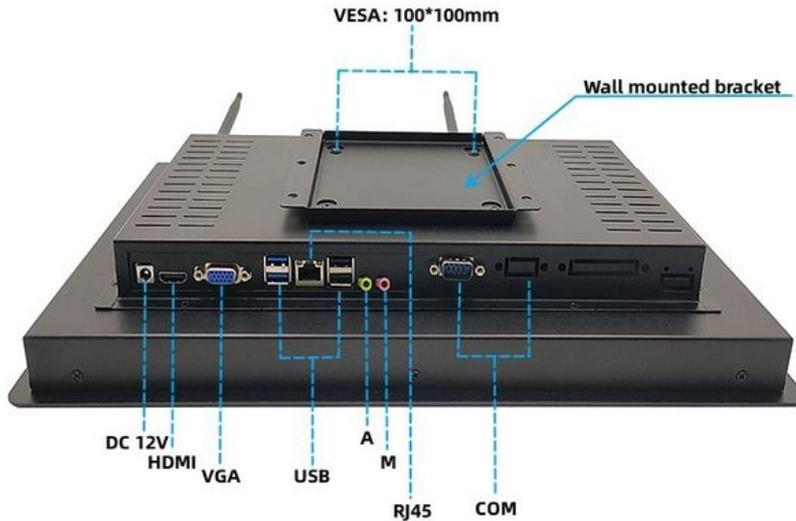

Mounting Options

Depending on the model, the 19-inch all-in-one computer may support various mounting options. It could come with a stand for placing it on a desk or table, or it may have VESA mounting compatibility, allowing you to mount it on a wall or an adjustable arm for ergonomic positioning.

Applications

The 19-inch all-in-one computer is suitable for various applications, including home entertainment, office work, educational institutions, and public displays. Its compact design and touch functionality make it ideal for interactive kiosks, point-of-sale systems, digital signage, and more.
