Product Description

Factory OEM 32 Inch Curved Touch Screen J-Shape Curve Capacitive Touch Screen LCD Monitor For Game Cabinet

The 32-inch curved touchscreen display, also known as the marquee display, is an eye-catching product. Equipped with an advanced LED backlight, its backlight life is more than 50,000 hours, providing users with a long-lasting and stable visual experience.

This curved touch screen has a high-definition resolution of 1920×1080, presenting a clear and delicate picture with more realistic details. The brightness reaches 300cd/ and the contrast is as high as 1200:1, making the colors more vivid and the picture layering richer. The response time is only 6ms, which can present the picture in real time to avoid the picture jamming phenomenon. In terms of color, it has 1.07B color and the color transition is natural and smooth.

The design of the 32-inch curved touch monitor provides users with the ultimate visual enjoyment. Its LED backlight source is not only energy-saving and environmentally friendly, but also can extend the service life of the product and ensure long-term stable operation. The backlight life of more than 50,000 hours allows users to not worry about the problem of frequent replacement of backlight tubes, and long-term use can also maintain stable brightness and color performance.

In terms of brightness and contrast, the 32-inch curved touchscreen display performs well. The high brightness of 300cd/ makes the picture brighter and clearer, and can maintain good visibility even in a strong light environment. The contrast ratio of 1200:1 brings a more vivid picture effect, with obvious black-and-white contrast and fuller colors. The response time is 6ms, and the picture switching is smooth and natural, which greatly enhances the user's visual experience. The display capability of 1.07B color enables the display to present more realistic and delicate color details, and the color transition is natural and smooth, allowing users to immerse themselves in it.

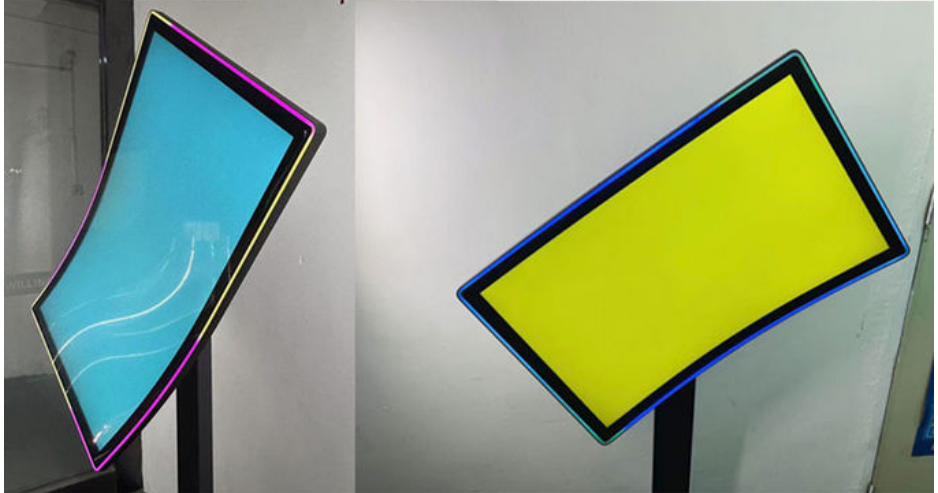

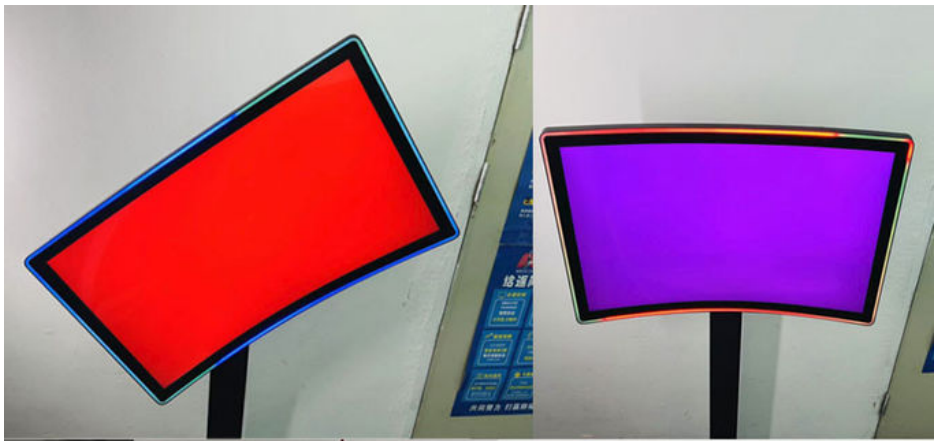

The 32-inch curved touch screen not only has excellent performance in picture performance but also in the viewing experience. Its horizontal and vertical viewing angles are both 178°, and users can enjoy clear and realistic display effects at almost any angle, whether watching movies, playing games, or doing office work, they can get the best visual experience.

Overall, the 32-inch curved touchscreen monitor provides users with a high-quality display device with excellent performance parameters and advanced technology. Whether in home entertainment, office work, or commercial applications, it can meet users' needs for clear, vivid, and delicate pictures. The energy-saving and environmentally friendly LED backlight, long life, high-definition resolution, wide viewing angle, and rich color expression make this curved touchscreen display the only choice for users pursuing quality and experience.

J-Type 32 Inch Curved Touch Screen Monitor		
LCD screen parameters	Model	JR32-1
	Size	32 Inch curved touch monitor
	Resolution	1920 × 1080
	Brightness	300cd/
	Contrast	1200:1
	Display Ratio	16:9
	Backlight	LED
	Response Time	6ms
	Color	1.07B
	Viewing Angle	178°(H)/178°(V)
	Backlight Life	≥50,000H
Capacitive screen parameters	Appearance	Capacitor + aluminum frame + sheet metal shell
	Touch Solution	Projected G+FF capacitive touch technology
	Response Time	<5ms
	Number of touchpoints	Standard 10-point touch (can zoom in and out pictures, etc.)
	Effective touch recognition	>1.5mm
	Scanning frequency	200HZ
	Scanning accuracy	4096 × 4096
	Communication method	Full-speed USB2.0, USB3.0
	Theoretical number of clicks	More than 50 million
	Working current/voltage	180Ma/DC+5V+/-5%
	Anti-light interference	Normal when strong light such as sunlight, incandescent lamps, or fluorescent lamps changes
	Touch data output method	Coordinate output
	Surface hardness	Tempered glass, Mohs 7 explosion-proof glass
	Operating system	compatibility Android system/Windows system
	Driver	Driver-free, plug-and-play
		HDMI input 1

	External interface	VGA input 1
	3M card	12 years of industry experience Countless motherboard tests USB/serial port-free switching Touch direction button adjustment USB/TTL/UUPD/RS232 Full tracking service, special program customization (remote/on-site) adaptation
	Light card	Computer control signal output More than 300 lighting modes are available Can be connected to machine light strips and display light strips simultaneously Can connect 8 light strips, each with 1200 lamp beads

FAQ

Q: How can I get the price?

A: We usually give you a quotation within 24 hours after receiving the inquiry (except weekends and holidays), if you need a quotation urgently, you can contact us by mail or other means.

Q: What is the minimum order?

A: Our company mainly deals in wholesale business, but if you insist on buying one, or you only need one set, we will also deliver the goods to you.

Q: Can I buy a prototype to test before buying in bulk?

A: Yes, please feel free to contact us.

Q: What payment methods do you accept?

A: Our company supports most payment methods, but usually accepts T/T, PayPal.

Q: What are your shipping methods?

A: We support sea, air, and rail transportation and express delivery, and we also allow customers to use their own logistics forwarders. Please confirm with us before placing an order.

Q: I would like to ask you if it's possible to have my logo on the product.

A: Yes, we support OEM and special customization to design, produce, and process according to customer's requirements. Of course, custom logos on the box and instruction manual are also included.

Q: What is your delivery time?

A: It depends on the quantity of your order and the season. Usually, small amounts are shipped within 5 to 15 days, and large quantities are delivered within about 30 days. The delivery time will not exceed the agreed-upon time between the buyer and us.
